

Digital Pressure Gauges

SSEA Digital Pressure Gauges are used for accurate reading and testing of analog pressure gauges. We offer CE approved digital gauges with

- precise pressure reading
- Range from -1 up to 2500 bar
- zero point calibration
- LCD backlight display
- inbuilt temperature compensation
- high accuracy (upto $\pm 0.025\%$ FS)
- unit display in PSI, kgf/cm², bar, mbar, mmH₂O, mmHg, MPa, kPa, Pa.

DTG 100 Digital Pressure Gauge

The DTG100 Digital Pressure Gauge gives long term precise pressure readings with

- high accuracy (standard: $\pm 0.5\%$ and $\pm 0.1\%$, high 0.05% FS)
- -1 to 600 bar
- overload alarm
- 5 digit LCD display
- light weight Alu Alloy cover
- SS bottom connection
- CE & Ex approval
- 2 year operation with dry cell Lithium batteries

DTG 200 Digital High Accuracy & Pressure Gauge

The DTG 200 Pressure Gauge for high accuracy and high pressure reading for the power, chemical, petrol, metallurgy industry

- High accuracy, (up to $\pm 0.025\%$ FS)
- -1 to 2500 bar
- 6 digit LCD display, dual readout
- rugged ABS plastic
- min/max values
- rechargeable Lithium battery
- CE and Ex approval
- RS 232 communication with PC
